

# Glutathione MaxGXL

Hi Everyone,

**“I can tell you without equivocation that glutathione is the most important endogenous antioxidant there is. It is manufactured by the body and is the only antioxidant that can recycle itself.”** Such is the judgment of a highly regarded and credentialed scientist who served for 32 years as a senior editor for the prestigious, international *Journal of Medicinal Chemistry*, and one year as Acting Editor-in-Chief. He didn't reach this conclusion after a cursory study of glutathione, but only after dedicating **25 years to study** this most important of all cell protectors.

He was Adjunct Professor, Center for Drug Design, and Professor Emeritus, Medicinal Chemistry and Toxicology, both at the University of Minnesota. He served as a Senior Scientist for the Veterans Administration.

In addition to his service to *Journal of Medicinal Chemistry*, he served on the editorial board of the journal *Bioconjugate Chemistry* for eight years, and as an ad hoc grant reviewer for the NCI and NIAAA, National Institutes of Health. He has published **more than 165 papers** in peer-reviewed journals, and is the inventor named on ten U.S. and PCT patent applications. He has spent 40 years in research labs at both the University of Minnesota and the V.A. Medical Center in Minneapolis.

I am referring to **Herbert Nagasawa, PhD**, who retired from the University of Minnesota to focus on what matters most to him—taking the benefits of glutathione and MaxGXL to the corners of the world...which led him to Max International. Refer to the website below for more information on Dr. Nagasawa.

As you know from the other material on this page of my website, I have total confidence in the products available from Max International, including **MaxGXL Sport®** (veggie caps).

I encourage you to give this product a 3-month test period and see for yourself how much better you will feel and look. For more information, or to order, please visit: **[www.4HealthBliss.com](http://www.4HealthBliss.com)**. To order wholesale as I do, click on *Preferred Customer*.

All best wishes,

**Susan S. Jones**
