

IONIZER PLUS®

THIS IS THE WATER PURIFIER & ELECTROLYZER EXTRAORDINAIRE IN SUSAN'S HOME

The Ionizer Plus™ Water Electrolyzer ...

- Accelerates hydration
- Increases mineral absorption
- Boosts antioxidant efficiency
- Balances digestive system

The most essential element in nutrition is water. Depending on the source, water almost always contains valuable minerals such as calcium, magnesium, and potassium. The *Ionizer Plus* water

electrolyzer concentrates the minerals present in your water. In the process of doing so, it makes both the water and the minerals more bioavailable and easily absorbed. Drinking this has the effect of improving the digestive system and, in fact, they guarantee it will solve digestive problems within 30 days, or your money back.

Water = Vitality +**

Ionizer Plus®

Normal, healthy body functioning has extreme specific pH requirements. Arterial blood, for instance, has a pH between 7.35 and 7.45. Though the body utilizes a buffering mechanism to maintain a specific pH, this buffering mechanism can be stretched beyond its capacity by life's many sources of acidity. When the blood pH chronically sits toward the acidic side of this range, research shows this has a slow but steady negative impact on health.

WHAT'S THE SOLUTION?

The solution is to return the body to a state of balance where it can heal itself of the other problems. The *Ionizer Plus*, through a process of electrolysis, concentrates minerals (calcium, magnesium, potassium) already present in your water. In the process of doing so, the minerals get split into the highly bioavailable ionic form and the resulting water is alkaline (has a pH greater than 7.0). The electrolysis process also reduces the surface tension of the water making the water itself more easily absorbed by the body. Not only does this water help fight and reverse on-going acidity, but it also is a rich source of the very minerals robbed by acidity in the past. To order the stellar *Ionizer Plus* or the health-enhancing *Thermal Life® Far Infrared Sauna* — both are Susan's favorite products that she has used and recommended for years, call:

Rejuvenate Your Body with a Thermal Life Sauna

Our level of toxic exposure far outstrips our body’s natural elimination mechanisms. Studies indicate that most of us have between 400 and 800 chemical residues stores in the fat cells of our bodies. To stay healthy and strong in this chemical-ridden world, it’s essential to help the body increase its removal of harmful and potentially deadly waste products.

What’s the Solution:

The solution—regular, effective, whole-body detoxification. Far infrared sauna therapy boosts the body’s ability to detoxify, leading to significant and lasting health benefits. In fact, use of the *Thermal Life Far Infrared Sauna* is recognized worldwide by medical doctors and health practitioners as perhaps the most effective method of removing both chemical and heavy metal toxins (including mercury) from the body.

How does far infrared work?

Far infrared is a section of the natural band of light that is not visible to the human eye, but can be felt as heat. Unlike the high heat produced in traditional saunas, far infrared heat is able to penetrate the body to a depth of 1.5 to 2 inches. This stimulates the body’s cellular detoxification process more effectively and at a lower temperature than a traditional sauna.

What are other benefits of this sauna?

- ★ Combatting toxic overload
- ★ Stress relief
- ★ Enhanced immune health
- ★ Weight and cellulite control
- ★ Improved cardiovascular conditioning
- ★ Pain relief and relaxation
